The Honorable Kevin McCarthy
Minority Leader
U.S. House of Representatives
H-204, The Capitol
Washington, D.C. 20515

Dear Speaker Pelosi, Leader McConnell, Leader McCarthy and Leader Schumer:

As you consider the next phase of relief in response to the Coronavirus Disease 2019 (COVID-19) outbreak, our national associations¹ request additional flexibility in the supplemental nutrition assistance program (SNAP) to better allow us to serve our customers in need. During many natural disasters, the U.S. Department of Agriculture's Food and Nutrition Service (FNS) provides a waiver so that SNAP beneficiaries can purchase hot prepared foods in addition to the other foods that these benefits cover. Because the COVID-19 pandemic was declared a national

¹ NACS is an international trade association representing the convenience store industry with more than 2,200 retail and 1,600 supplier companies as members, the majority of whom are based in the United States. SIGMA represents a diverse membership of approximately 260 independent chain retailers and marketers of motor fuel. NATSO currently represents approximately more than 3,000 travel plazas and truck stops nationwide, comprised of both national chains and small, independent locations. The National Retail Federation, the world's largest retail trade association, passionately advocates for the people, brands, policies and ideas that help retail thrive. The National Restaurant Association is the leading business association for the restaurant and foodservice industry, representing more than 15.6 million employees, nearly 10 percent of the nation's workforce. With one million locations across the country, 90 percent of those being small businesses, the industry is a vital part of the U.S. economy.

emergency rather than a *disaster*, however, FNS does not have the same leeway to provide a waiver for the purchase of hot foods with SNAP.

Our customers need the flexibility to purchase hot foods for carryout with SNAP. Due to the response to the COVID-19 outbreak, our members have seen store shelves go empty for periods of time. While overall there is no shortage of foods, the staples that many customers rely on are often unavailable when they visit their local store. These customers, particularly those trying to follow state and local guidance to stay at home unless purchasing essential items, need the flexibility to purchase other foods – such as hot prepared foods – that may be available to them when they need them.

Our customers are also facing challenges with their normal food preparation routines. Children are home from schools and daycare in large numbers and for longer hours than has occurred in the past. At the same time, parents and other caregivers are pulled in many directions – some caring for ill loved ones, some ill themselves. Many of these families need the flexibility of providing hot prepared foods to keep their families healthy and fed during a very trying time.

We respectfully ask Congress to pass legislation giving SNAP households the flexibility to purchase hot foods with their benefits during this pandemic. We appreciate your consideration of this request. We look forward to working with you to address this ongoing health crisis.

Sincerely,

National Association of Convenience Stores
National Restaurant Association
National Retail Federation
NATSO, Representing America's Travel Plazas and Truckstops
Society of Independent Gasoline Marketers of America
